December 8, 2020

This is a message from the Town of Hatfield. As cases of the COVID-19 Coronavirus continue, the Board of Selectmen and the Board of Health feel it is important we take measures to protect our employees and residents to reduce the spread of the virus.

The Town Hall is now officially open to the public Monday thru Friday, 8:30am-4:30pm. Some offices do have specific office hours and you are encouraged to check the town website for more information. The Hatfield public schools are in person learning for priority students and remote for non-priority students until January 7, 2021.

As we continue with Phase 3, Step 2, please go to www.mass.gov to be able to see all new guidelines set by Governor Baker, most recently being on 11/6. Per the new guidelines masks must be worn in public at all times, gatherings in Hatfield are limited to 10 people or less at residences, 25 people or less for indoor gatherings at a banquet hall etc., and no more than 100 people at an outside event location. Also the state has set a curfew of 10pm-5am to be home and not out unless you are going to and from work or you have an emergency and need to leave your home during that time. Restaurants must close by 9:30 PM for indoor and outdoor dining. Playgrounds remain open, basketball hoops will remain down till after the winter season. All questions, concerns and complaints can be directed to the COVID Coordinator at any time, she can be reached at 413-247-9200 ext. 105 or email kflaherty@townofhatfield.org. All information gets forwarded to both the BOS and the BOH so that all boards are updated with the information and questions.

As of today, Tuesday, December 8, 2020 the Town of Hatfield has 3 new positive cases, totaling 46 for the town from 1/1/20-12/08/20 and we have 5 that are in quarantine. All contact tracing has been completed at this time. If you did not receive a phone call directly or were not informed by one of the positive cases, then you are not an immediate exposure. Also, there is not one general location or event that caused all these cases. Please, continue to follow the CDC guidelines and adhere to the 6' social distancing recommendations and you MUST be wearing a mask or mouth and nose coverage, wash your hands with soap and water for 20 seconds or use alcohol-based hand sanitizers. We ask that if you have not been given direct information from the town specifically about cases, exposures, or "hot spots" to please not spread false information, all that does is cause unneeded panic during a very serious and scary time and we don't need that in the community.

For those who plan on traveling, please remember to follow the Massachusetts state guidelines, they are as follows. At this time 49 states are considered "Red" and travel guidelines should be followed,

--All visitors entering Massachusetts, including returning residents, who do not meet an exemption, are required to:

- Complete the **Massachusetts Travel Form** prior to arrival, unless you are visiting from a lower-risk state designated by the Department of Public Health.
- Quarantine for 14 days or produce a negative COVID-19 test result that has been administered up to 72-hours prior to your arrival in Massachusetts.

If your COVID-19 test result has not been received prior to arrival, visitors, and residents must quarantine until they receive a negative test result.

Failure to comply may result in a **\$500 fine per day**.

Please find more information on the state website which gives further details on what to be doing.

The town will be providing updates every Monday evening or as new information becomes available. Residents are encouraged to go to the town website and click on the CodeRed link on the home page and register to make sure you get all emergency notifications from the town.

Stay safe, stay healthy!!

Kerry Flaherty
COVID Coordinator
