1. Reviewed minutes from the October 26, 2023 meeting. Approved.
2. Jennifer Polverari from the Assessors Office reported that this coming year is a full recertification year, which occurs every nine years. Their software needs will increase by \$4,500. In 2026 there will be a more significant increase in the cost of the Patriot Software.
3. There was a discussion with Christy Boudreau from the School Committee regarding how their budget is at this point. They will be doing a deep dive over the next few weeks, so actual figures will be available at the end of February. We decided to pencil in 2/27 as a follow up meeting.

Meeting adjourned at 7:30pm
