20

Enjoy the fruits of Hatfield's farms throughout the year!

Hatfield's rich agricultural tradition continues to this day, with about 3,500 acres of the most fertile farmland in the nation along the Connecticut River devoted to a wide range of fruits, vegetables and livestock. The town is also home to renowned nurseries and tree farms. While much of the produce is sold to wholesale markets, you can still drive through Hatfield and purchase direct from farmers year-round.
