TO: Town of Hatfield Residents
FROM: Garrett Barry, Department of Public Works Lead Laborer
DATE: July 1, 2017
RE: Lightbulb, Paint and Hazardous Waste Disposal

As of July 1st 2017, residents will no longer be able to dispose of lightbulbs, paint, and hazardous waste (pesticides, fertilizer, etc.) at the Transfer Station.

The Department of Public Works will schedule two (2) hazardous waste disposal days a year at the Transfer Station. This will allow residents the opportunity to bring items for proper disposal for a fee. When disposal dates are scheduled, the dates will be posted.
