Section 1.01A: A quorum of seventy-five voters shall be required for carrying on any business at an Annual and Special Town Meeting except for and excluding the elections of town, state and federal officers; the determination of any matters required by the statutory law of the Commonwealth of Massachusetts and federal government to be elected or determined by ballot; and the dissolution or adjournment of any such meeting.

Section 1.02: All motions shall be in writing if requested by the moderator.

Section 1.03: 'Town Meeting Time-Handbook of Parliamentary Law' shall govern.

Section 1.03A: Whenever a two-thirds vote is required by statute, such vote may be declared as such by the moderator without a count and be recorded as such by the clerk upon such declaration, provided, however that seven or more members of a town meeting may challenge such declaration, all as provided by Massachusetts General Law Chapter 39, Section 15, at which time a count shall be held. Before considering another warrant article the Moderator shall ask if the two-thirds vote is questioned.

Section 1.04: No person shall speak more than seven minutes at any one time or more than twice on the same subject, without leave of the meeting except to raise a point of order.

Section 1.05: No motion to dissolve a town meeting shall be in order until every article in the warrant therefor has been acted upon. No person shall be permitted to smoke at a Town Meeting.

Section 1.06A: There shall be a finance committee consisting of five members to be appointed by the moderator. In addition to the five appointed members the Town Treasurer and Town Accountant shall serve as non-voting ex-officio members of the Finance Committee. The members shall hold office for three years and their terms of office shall expire at the final adjournment of the third annual town meeting following their

appointment except that the terms of the two members appointed initially to increase the committee from three to five shall be so arranged that the term of one member shall expire in one year at the final adjournment of the first annual town meeting following his appointment and the term of the other member shall expire in two years at the final adjournment of the second annual town meeting following his appointment and thereafter the terms of these members shall expire at the final adjournment of the third annual town meeting following their appointment. And whereas the Town does not wish to prohibit the possession, storage, transportation or use of such manure, whether for fertilization or otherwise, in any manner not inconsistent with the foregoing, nor in any way to unreasonably impede normal poultry maintenance, but rather only to provide for the reasonable regulation of the same, fully consistent with and in recognition of the legitimate and lawful rights and interests of all relative to both agricultural and residential concerns, now therefore:

1. It is hereby declared unlawful and a violation of this by-law to spread poultry manure or to cause the same to be done any time from June 1st to September 30th, or to transport or deliver same in or to any location in Town, or to cause the same to be done, at any time from June 1st to September 30th.

Provided, however, that it shall not be here-by made unlawful to transport poultry manure in sealed containers

which prevent the escape of any odors, germs and any other harmful or offensive properties therefrom. And provided, further, that this by-law is in no way intended, nor shall it in any way be construed, to prohibit or make unlawful any handling of poultry manure, other than the spreading thereof, so long as such handling is incident to the normal and otherwise lawful maintenance of poultry, and so long as the manure thereby produced is kept within premises owned or controlled by the person(s) maintaining such poultry therein.

2. Whoever violates this by-law shall be fined up to \$50.00 for each offense.

Section 3.14 WETLAND PROTECTION BYLAW

1. Purpose

The purpose of this bylaw is to protect the wetlands, water resources, and adjoining land areas in the Town of Hatfield by controlling activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon resource area values, including but not limited to the following: public or private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, water pollution control, fisheries, wildlife habitat, rare wildlife species and their habitat, rare plant species and their habitat, agriculture, aquaculture, and recreation values, deemed important to the community (collectively, the "resource area values protected by this bylaw"). This bylaw is intended to utilize the Home Rule authority of this municipality to protect additional resource areas, and additional resource values, with additional standards and procedures stricter than those of the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations thereunder (310 CMR 10.00).

II. Jurisdiction

Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall remove, fill, dredge, build upon, degrade, discharge into, or otherwise alter the following resource areas: any freshwater wetlands; marshes; wet meadows; bogs; swamps; vernal pools;

banks; reservoirs; lakes; ponds of any size; rivers; streams; creeks; lands under water bodies; lands subject to flooding or inundation by groundwater or surface water; and lands abutting, any of the aforesaid resource areas as set out in Sec. VII (collectively the "resource areas protected by this bylaw"). Said resource areas shall be protected whether or not they border surface waters.

III. Conditional Exceptions

The application and permit required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph, or other telecommunication services, provided that written notice has been given to the Commission prior to commencement of work, the Commission agrees that the proposed work meets appropriate standards for maintenance, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The application and permit required by this bylaw shall not be required for work performed for normal maintenance or improvement of land which is lawfully in agricultural use at the time the work takes place, provided that written notice has been given to the Commission prior to commencement of work, the Commission agrees that the proposed work meets appropriate standards for maintenance and improvement of land in agricultural use, and provided that the work conforms to applicable performance standards, if adopted by the Commission in conformance with this Bylaw.

The application and permit required by this bylaw shall not be required for emergency projects necessary for protection of the human health and safety, or the preservation or protection of wetland resources from a clear, present, and immediate danger; provided that advance notice, oral and written, has been given to the Commission prior to commencement of work; provided that the Commission or its agent certifies the work as an emergency project; and provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this section, the exceptions provided in the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 10.00) shall not apply under this bylaw.

IV. Applications for Permits and Requests for Determination

Written application shall be filed with the Commission to perform activities affecting resource areas protected by this bylaw. The permit application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.

The Commission in an appropriate case may accept as the permit application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act (G.L. Ch. 131 Sec.40) and Regulations (310 CMR 10.00).

Any person desiring, to know whether or not a proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a Request for Determination (RFD) shall include information and plans as are deemed necessary by the Commission.

At the time of a permit application or RFD, or application for Certificate of Compliance, the applicant shall pay a filing fee specified in Regulations of the Commission. In cases where a fee is paid to the Town under the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 10.00) for application for the same activity, no additional fee shall be required. The fee shall be deposited in a dedicated account, for use only for wetlands protection activities, from which the Commission may withdraw funds without further appropriation.

Upon receipt of a permit application or RFD, or at any point during the hearing process, the Commission is authorized to require an applicant to pay a fee for the reasonable costs and expenses borne by the Commission for specific expert engineering and other consultant services, if deemed necessary by the Commission to come to a final decision on the application. This fee is called the "consultant fee." The specific consultant services may include, but are not limited to, performing or verifying the accuracy of resource area survey and delineation; analyzing resource area functions and values, including wildlife habitat evaluations, hydrologic and drainage analysis; and researching environmental or land use law.

The Commission may require the payment of the consultant fee at any point in its deliberations prior to a final decision. If a revolving fund for consultant expenses and fees is authorized by the town meeting, or by any general or special law, the applicant's fee shall be put into such revolving fund, and the Commission may draw upon that fund for specific consultant services approved by the Commission at one of its public meetings. Any unused portion of the consultant fee shall be returned to the applicant unless the Commission decides at a public meeting that additional services will be required.

The exercise of discretion by the Commission in making its determination to require the payment of a consultant fee shall be based upon its reasonable finding, that additional information acquirable only through outside consultants would be necessary for the making of an objective decision. Any applicant aggrieved by the imposition of, or size of, the consultant fee, or any act related thereto, may appeal according to the provisions of the Massachusetts General Laws. The Commission may waive the filing fee, consultant fee, and costs and expenses for a permit application or RFD filed by a government agency. The maximum consultant fee charged to reimburse the Commission for reasonable costs and expenses shall not exceed \$500.00 or 5.0% of the estimated cost of the entire project, whichever is greater. The project cost means the estimated, entire cost of the project including,

but not limited to, building construction, site preparation, landscaping, and all site improvements. The project shall not be segmented to avoid being, subject to the consultant fee. The applicant shall submit estimated project costs at the Commission's request, but the lack of such estimated project costs shall not avoid the payment of the consultant fee.

V. Notice and Hearings

Any person filing a permit application or a RFD with the Commission at the same time shall give written notice thereof, by certified mail (return receipt requested), certificate of mailing or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 300 feet of the property line of the applicant, including any in another municipality or across a body of water. The notice to abutters shall have enclosed a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the person making, the request.

The Commission shall conduct a public hearing, on any permit application or RFD, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing, within 30 days from receipt of a completed permit application or RFD unless an extension is authorized in writing, by the applicant.

The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission in an appropriate case may combine its hearing, under this bylaw with the hearing conducted under the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 1 0.00).

The Commission shall have authority to continue the hearing to a certain date announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of the boards and officials listed in Sec. VI.

VI. Coordination with Other Boards

Any person filing a permit application or RFD with the Commission shall provide notice of application thereof at the same time, by certified mail (return receipt requested), certificate of mailing or hand delivery, to the selectboard, planning board, board of

appeals, board of health, and building, inspector. Notice shall be provided in the same manner to the Conservation Commission of the adjoining municipality, if the application or RFD pertains to property within 300 feet of that municipality. A copy of the permit application shall be provided free of charge to the aforementioned notified parties upon their request. An affidavit of the person providing notice shall be filed with the Commission. The Commission shall not take final action until the boards and officials have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

VII. Permits and Conditions -

If the Commission, after a public hearing, determines that the activities which are subject to the permit application or the land and water uses which will result therefrom are likely to have a significant individual or cumulative effect upon the resource area values protected by this bylaw, the Commission, within 21 days of the close of the hearing and receipt of any final plan modifications, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose such conditions that the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected resource areas throughout the community and the watershed, resulting from past activities, permitted and exempt, and foreseeable future activities. The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw; and where no conditions are adequate to protect those values. Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

Lands within 200 feet of perennial streams, wetland resources tributary to the Hatfield Reservoir, ponds and lakes (the 200 foot zone), and lands within 100 feet of other resource areas (the 100 foot zone), are presumed to provide important adjacent wildlife habitat and secondary protection of these wetland resources. Activities undertaken in close proximity to wetland resource areas are presumed to have a high likelihood of adverse impact upon the wetland or other resource, either immediately (as a consequence of construction), or over time (as a consequence of daily operation or existence of the activities). These adverse impacts from construction and use can include, without limitation, erosion, siltation, loss of groundwater recharge, reduction in surface and ground water quality, and loss or degradation of wildlife habitat. The Commission, therefore, may require that the

applicant maintain continuous, undisturbed vegetative cover within a portion of the 200-foot or 100-foot area(s). The Commission may allow activity within this area if the applicant provides convincing evidence to the Commission that the planned activity, on balance, would allow disturbance to the area or part of it without harm to the values protected by this bylaw. In the review of areas within the 200 foot zone and the 100 foot zone, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this bylaw, has proved by a preponderance of the evidence that (1) there is no practicable alternative to the proposed project with less adverse effects, and that (2) such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this bylaw. The Commission shall regard as practicable an alternative which is reasonably capable of being, done after taking into consideration the proposed property use, overall project purpose (e.g., residential, institutional, commercial, or industrial purpose), logistics, existing technology, costs of the alternatives, and overall project costs. To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible; shall minimize wetlands alteration; and, where alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.

A permit shall expire three years from the date of issuance. Notwithstanding, the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed for good cause at the discretion of the Commission, provided that a request for a renewal is received in writing, by the Commission prior to expiration. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land. For good cause the Commission may revoke or modify a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters, and town boards, pursuant to Sec. V and Sec. VI, and a public hearing. For appropriate jurisdictional areas, the Commission may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 10.00). No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded.

VIII. Regulations

After public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw effective when voted and filed with the town or city clerk. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw. At a minimum, these regulations shall define key terms in this bylaw not inconsistent with the bylaw and procedures governing, the amount and filing, of fees.

IX. Definitions

The following definitions shall apply in the interpretation and implementation of this bylaw. The term "bank" shall include the land area which normally abuts and confines a water body; the lower boundary being, the mean annual low flow level, and the upper boundary being, the first observable break in the slope or the mean annual flood level, whichever is higher.

The term "vernal pool" shall include a confined basin depression which, at least in most years, holds water for a minimum of two continuous months during, the spring and/or summer, and which is free of adult fish populations, as well as the area within 100 feet of the mean annual boundary of such a depression, regardless of whether the site has been certified by the Massachusetts Division of Fisheries and Wildlife. Vernal pools under this bylaw shall not include constructed landscape pools, farm ponds, or other artificial water-bearing topographic depressions unless abandoned in place for 10 years or more, surrounded by reasonably undisturbed vegetation, and not subject to a violation of this bylaw or the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 1 0.00) thereunder.

The term "rare species" shall include, without limitation, all vertebrate and invertebrate animal and plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of Fisheries and Wildlife, regardless of whether the site in which they occur has been previously identified by the Division. The term "person" shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents, or assigns. The term "alter" shall include, without limitation, the following activities when undertaken to, upon, within or affecting resource areas protected by this bylaw:

- A. Removal, excavation, or dredging of soil, sand, gravel, or aggregate materials of any kind
- B. Changing, of preexisting drainage characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics
- C. Drainage, or other disturbance of water level or water table

- K. Incremental activities that have, or may have, a cumulative adverse impact on the resource areas protected by this bylaw.

Except as otherwise provided in this bylaw or in regulations of the Commission, the definitions of terms in this bylaw shall be as set forth in the Wetlands Protection Act (G.L. Ch. 131 Sec 40) and Regulations (310 CMR 10.00).

X. Security

As part of a permit issued under this bylaw for a major project involving work within a resource area, in addition to any security required by any other municipal or state board, agency, or official, the Commission may require that the performance and observance of the conditions imposed thereunder (including, conditions requiring mitigation work) be secured wholly or in part by one or more of the methods described below:

- A. By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit.
- B. By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

XI. Enforcement

No person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow such activity, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.

The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys, or sampling, as the Commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by any one or more of the following; violation notices, administrative orders (citations under G.L. Ch. 40 Sec 21D), and civil and criminal court actions. Any person who violates provisions of this bylaw may be ordered to restore the property to its original condition and to take other action deemed necessary to remedy such violations, or may be fined, or both. Upon request of the Commission, the Board of Selectmen and the town counsel may take legal action for enforcement under civil law. Upon request of the Commission, the chief of police may take any appropriate legal action for enforcement under criminal law. The Commission may also use funds otherwise available to it for investigation, legal services and enforcement activities under this bylaw. Municipal boards and officers, including any police officer or other officer having, police powers, shall have authority to assist the Commission in enforcement. Any person who violates any provision of this bylaw, or regulations, permits, or administrative orders issued thereunder, shall be punished by a fine of not more than \$300. Each day or portion thereof during, which a violation continues, or unauthorized fill or other alteration remains in place, shall constitute a separate offense, and each provision of the bylaw, regulations, permits, or administrative orders violated shall constitute a separate offense. As an alternative to criminal prosecution in a specific case, the Commission may issue citations under the non-criminal disposition procedure set forth in G.L. Ch. 40 Sec 21D.

XII. Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the permit application will not have unacceptable significant or cumulative effect upon the resource areas and values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

XIII. Appeals

A decision of the Commission shall be reviewable in the Superior Court in accordance with G.L. Ch. 249 Sec. 4.

XIV. Relation to the Wetlands Protection Act

This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act (G.L. Ch. 131 Sec. 40) and Regulations (310 CMR 1 0.00) thereunder.

Moreover, nothing in this Right To Farm By-law shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

Section 4 Disclosure Notification

Such farming activities may include, but are not limited to, activities that cause noise, dust and odors."

In addition to the above, a copy of this disclosure notification shall be provided by the Town to landowners each fiscal year by mail.

Section 5 Resolution of Disputes

Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. remainder of this By-law. The Town of Hatfield hereby declares the provisions of this By-law to be severable.

Section 3. Procedure

No demolition permit for a building which is in whole or in part one hundred years or more old shall be issued without following the provisions of this bylaw. If a building is of unknown age, it shall be assumed that the building is over one hundred years old for the purposes of this bylaw.

An applicant proposing to demolish a building subject to this bylaw shall file with the Building Commissioner an application containing the following information:

The address of the building to be demolished.

Upon determination by the Commission that the building is significant, the Commission shall so notify the Building Commissioner and the applicant in writing. Public notice of the time, place and purpose of the hearing shall be posted in a conspicuous place in town hall for a period of not less than seven days prior to the date of said hearing and the applicant and the building inspector shall be notified in writing of the meeting time and place

The Commission shall decide at the public hearing or within fourteen days after the public hearing whether the building should be preferably preserved. If agreed to in writing by the applicant, the determination of the Commission may be postponed.

If the Commission determines that the building is not preferably preserved, the Commission shall so notify the Building Commissioner and applicant in writing. The Building Commissioner may then issue the demolition permit.

If the Commission determines that the building is preferably preserved, the Commission shall notify the Building Commissioner and applicant in writing. No demolition permit may then be issued for a period of twelve months from the date of the determination unless otherwise agreed to by the Commission. If the Commission does not so notify the Building Commissioner in writing within twenty one days of the public hearing, the Building Commissioner may issue the demolition permit

Upon determination by the Commission that any building which is the subject of an application is a preferably preserved building, no building permit for new construction or alterations on the premises shall be issued for a period of twelve months from the date of the determination unless otherwise agreed to by the Commission.

No permit for demolition of a building determined to be a preferably preserved building shall be granted until all plans for future use and development of the site have been filed with the Building Commissioner and have found to comply with all laws pertaining to the issuance of a building permit or if for a parking lot a certificate of occupancy for that site. All approvals necessary for the issuance of such building permit or certificate of occupancy including without limitation any necessary zoning variances or special permits, must be granted and all appeals from the granting of such approvals must be concluded, prior to the issuance of a demolition permit under this section.

The Building Commissioner may issue a demolition permit or a building permit for a preferably preserved building within the twelve months if the Commission notifies the Building Commissioner in writing that the Commission finds that the intent and purpose of this bylaw is served even with the issuance of the demolition permit or the building permit. Following the twelve month delay period, the Building Commissioner may issue the demolition permit.

Section 4. Administration

The Commission may adopt such rules and regulations as are necessary to administer the terms of this bylaw.

Buildings proposed for the significant building list shall be added following a public hearing.

Section 5. Emergency Demolition

If after an inspection, the Building Commissioner finds that a building subject to this bylaw is found to pose an immediate threat to public health or safety due to its deteriorated condition and that there is no reasonable alternative to the immediate demolition of the building or structure, then the Building Commissioner may issue an emergency

demolition permit to the owner of the building or structure. The Building Commissioner shall then prepare a report explaining the condition of the building and the basis for his decision which shall be forwarded to the Commission.

Section 6. Enforcement and Remedies

The Commission and/or the Building Commissioner are each specifically authorized to institute any and all actions and proceedings, in law or equity, as they may deem necessary and appropriate to obtain compliance with the requirements of this by-law or to prevent a threatened violation thereof. Any owner of a building subject to this bylaw that demolished the building without first obtaining a demolition permit in accordance with the provisions of this bylaw shall be subject to a fine of not more than three hundred dollars. Each day the violation exists shall constitute a separate offense until a faithful restoration of the demolished building is completed or unless otherwise agreed to by the Commission.

If a building subject to this bylaw is demolished without first obtaining a demolition permit, no building permit shall be issued for a period of two years from the date of the demolition on the subject parcel of land or any adjoining parcels of land under common ownership and control unless the building permit is for the faithful restoration referred to above or unless otherwise agreed to by the Commission.

Section 7. Historic District Act

Following a determination that the building is significant and preferably preserved, the Commission may recommend to town meeting that the building be protected through the provisions of Massachusetts General Law, Chapter 40C, the Historic Districts Act. The steps required under M. G. L. Chapter 40C shall be followed prior to the establishment of a local historic district. Nothing in this by-law shall be deemed to conflict with the provisions of the Historic District Act, Massachusetts General Laws Chapter 40C. If any of the provisions of this by-law do so conflict, that act shall prevail.

Section 8. Severability

In case any section, paragraph or part of this by-law be for any reason declared invalid or unconstitutional by any court, every other section, paragraph, and part shall continue in full force and effect.
